### **EXAMINER'S AMENDMENT**

The application has been amended as follows: On page 1, after "March 29, 2002" (lines 4-5), insert -- , now Patent Number 6,668,628 --.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. All reference cited in the parent were considered. In addition, note that Carr make reference (col. 3, lines 60-65) to use of a layer with an internal stress component to provide for shaping of a cantilever device; but of course Carr's microaccelerometer (cantilever) device does not suggest the electrical testing device of claims 1,16,23 or 24.

Election of Group I is acknowledged. Claims 23 and 24 are rejoined with claims 1-22, as they are no longer patentably distinct due to Applicant's amendment of 5-25-04.

Claim 1 is allowable as the prior art neither teaches nor suggests the combination of the last three lines of that claim with remaining claim limitations.

Claims 16,23 and 24 are allowable as the prior art neither teaches nor suggests the combination of the last two lines of that claim with remaining claim limitations.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert R. Raevis whose telephone number is 571-272-2204.
